

ABSTRACT

In this project we have created a picture puzzle game using C# windows form application, a 3*3, 4*4 and 5*5 puzzle game.

The idea is simple: Choose any image of your choice from your pc, then crop the images of required dimension and insert the cropped images into the created buttons.

We have created the code in such a way that the cropped images can be moved in all possible movable directions so that the cropped images can be put together in a logical way which were disorganized earlier, this will finally lead to arrive at the correct and fun solution of the puzzle.

Solving puzzle helps develop abilities to reason, analyse, sequence, deduce, logical thought processes and problem-solving skills. Puzzle games boost brain power, improves memory, concentration, increases IQ, lowers stress level, stimulates the whole brain besides just providing mere entertainment.

ACKNOWLEDGEMENTS

We express our humble Pranas to his holiness **Parama Poojya Jagadguru Padmabushana Sri Sri Sri Dr. Balagangadharanatha MahaSwamiji** and **Parama Poojya Jagadguru Sri Sri Sri Dr. Nirmalanandanatha MahaSwamiji** and also to **Sri Sri Gunanatha Swamiji** Sringeri Branch Chikkamagaluru who have showered their blessings on us for framing our career successfully.

We are deeply indebted to our honorable Principal **Dr. C. T. JAYADEV** for creating the right kind of care.

We express our deepest gratitude to **Dr. Pushpa Ravikumar**, Professor & Head, Department of Computer Science & Engineering, AIT, Chikkamagaluru for her valuable guidance, suggestions and constant encouragement without which success of our project work would have been difficult.

We are thankful to our guide **Dr. Sunitha M R**, Professor, Department of Computer Science & Engineering, AIT, Chikkamagaluru for her inspiration and lively correspondence right from the beginning of our project work till its completion.

We would like to thank our beloved parents for their support, encouragement and blessings.

And last but not the least, we would be very pleased to express our heartfelt thanks to all teaching and non-teaching staff of CS&E department and our friends who have rendered their help, motivation and support.
